TUESDAY..... NOVEMBER 17, 1885.

## THE SENATE.

The New York Evening Post says:

The truth is that the contest for control of the United States Senate from 1887 to 1889 is going to be close and doubtful until after the elections of 1886. Twenty-six Republicans and twenty-five Democrats will hold over from the Forty-ninth Congress. The Republicans have already secured the Legislature in Ohio which elects the next Senator, and the Democrats in Maryland, Virginia and Mississippi, which makes twenty-eight Democrats and twenty-seven Republicans sure of seats after March 4, 1887. The Democrats are morally certain to carry next year's Legislatures, and thus secure the Senatorships in Delaware, Florida, Missouri, Tennessee, Texas and West Virginia, and the Republicans in Massachusetts, Minnesota, Nebraska, Pennsylvania, Rhode Island and Vermont. This will carry the totals up to thirty-four Democrats and thirty-three Republicans, and leaves the nine States of California, Connecticut, Indiana, Maine, Michigan, Nevada, New Jersey, New York and Wisconsin to be fought for. If the Democrats can add four of these nine to their previous thirty-four they will have a majority with Vice-President Hendrick's casting vote, while the Republicans must carry six of them to make their previous thirty-three a majority of the seventy-six members. The Republicans are pretty confident of carrying Maine and Wisconsin, while the Democrats are almost certain to secure Indiana. The Nevada seat will be again put up at auction, and a Democrat is as likely to "bid it in" as a Republican. California elected a Democratic Senator half a dozen years ago, and may do the same thing again. The Republicans came within a few votes of losing the Michigan Legislature last fall, and the State has become a doubtful one, while this week's election in Connecticut shows that neither party can count upon that State next year. The Democrats seem to-day as likely as not to get the New Jersey Legislature in 1886, and may elect enough members of the lower branch of the New York Legislature next year to give them a majority on joint ballot even with a Republican Senate—although the present apportionment system gives the Republicans a great advantage. In short, to secure a majority in the Senate of the Fifty-first Congress the Democrats will only need to elect their men next year from four States like California, Connecticut, Indiana, Nevada, New York and New Jersey, in which they have elected Senators when a Republican Administration was in power. They may not succeed in doing this, but it is the height of folly to maintain that they are certain to fail.

The Eureka Standard significantly remarks: We hear it is rumored that the only Democratic United States Senator from the Pacific Coast, may not advocate the confirmation by the Senate of some of the Presidential appointments which have been made in this State. If this be true we guess that the appointees will endeavor to conciliate the Republican Senators by agreeing to "tote fair."

Owing to the protest of Pendleton, American Minister, five German-Americans, whose expulsion from the Island of Foho was ordered by the German Government, will be allowed to remain on the island until further notice.

Hon. Dorman B. Eaton says he has the utmost confidence in the purpose of the new Commissioners and of the President to enforce the Civil Service Act and rules in their true spirit and with energy and success.

It is stated that the late Senator Sharon left instructions to his Trustees by which \$50,000 is to be donated for the improvement of Golden Gate Park, and another \$50,000 is to be used for charitable purposes.

Among the Trustees appointed by Governor Stanford appears the name of "Wm. M. Stewart, of Nevada." Ah! Do coming events cast their shadows before?

The old-time trotter, Occident, which in 1873 had the fastest trotting record to his credit—2:16½—died last Friday, aged twenty-two years.

Ex-Senator Sharon verbally directed the Trustees of his estate to give \$10,000 to the State Orphans' Home, at Carson.

## Stanford's Magnificent Gift.

Senator Leland Stanford, Saturday, at his residence, formally presented to the Trustees a deed of grant of the lands to be used for founding and endowing the Leland Stanford Jr., University on the Palo Alto farm. Following are the Trustees: Lorenzo Sawyer, James McM. Shafter, Charles Goodall, Alfred L. Tubbs, Francis A. Spencer, Henry Vrooman, Charles F. Crocker, Timothy Hopkins, Henry L. Dodge, Irwin M. Scott, William Ashburner, H. W. Harkness, Josiah Stanford, Horace Davis, John J. Miller, John Boggs, T. B. McFarland, Isaac Beleber, John Q. Brown, George E. Gray, N. W. Spanlding, Matthew P. Deady, of Oregon; Wm. M. Stewart, of Nevada (?), and Stephen J. Field. The total value of the land thus deeded is \$3,500,000. The deed of gift is tastefully emblazoned on white velvet and enclosed in a rosewood box. It is dated November 11, and is signed by Leland Stanford and Jane Lithope Stanford. The witnesses are Stephen T. Gage, E. H. Miller, Jr., Nicholas T. Smith, Herbert C. Nash, and Creed Hammond.

All of the Trustees were present except Messrs. Miller, Field, Deady and McShafter. Judge Lorenzo Sawyer was elected President of the Board of Trustees and Herbert Nash Secretary. The nature, object and purpose of the institution to be founded on the land granted by this deed are mentioned as follows: Its nature, that of a University, with such seminaries of learning as shall make it of the highest grade, including mechanical institutes, museums, galleries of art, laboratories, and conservatories, together with all things necessary for the study of agriculture in all its branches and for mechanical training and study and exercises directed to the cultivation and enlargement of the mind. Its object will be to qualify its students for personal success and direct usefulness in life, and its purposes to promote the welfare by exercising an influence in behalf of humanity and civilization, teaching the blessing of liberty regulated by law, and inculcating love and reverence for the great principle of government as derived from the inalienable rights of man to life, liberty and the pursuit of happiness.

The report of the Sixth Auditor of the Treasury, who has supervision over the accounts of the Postoffice Department, shows that during the last fiscal year nearly \$14,000,000 was expended for railroad transportation of mails; \$5,500,000 was paid to stage coaches, nearly \$600,000 was paid for internal transportation by steamboats, but only \$325,000 for the encouragement of foreign commerce. Of this \$325,000, only \$34,000 was paid to American ships, the balance going into the pockets of foreign steamship owners. During the same time England paid \$35,000,000 for her transportation on the sea, France paid \$6,400,000 in subsidies, Germany \$1,500,000, Italy and Spain about \$1,000,000 each, and other European commercial nations corresponding amounts. Brazil paid over a million, and even Guatemala and Chile paid more than the United States. Mexico paid nearly a million, and recently contracted with an English steamship company to furnish transportation between her west coast and China. She also pays subsidies for a line of steamers to the West Indies, and gives them \$25 per capita, head money, for every immigrant they bring to that country. Although Congress at the last session appropriated \$800,000 for foreign mail transportation, one-half of which was to go to foreign ships and the other half to American ships, the Postmaster-General still refuses to expend the appropriation for their benefit. An attempt will be made by the merchants of New York and San Francisco engaged in the foreign trade to secure a renewal of this appropriation with such provision as shall compel the Postmaster-General to carry out the law. Committees have been appointed by various commercial exchanges of New York, who have the matter in charge.

Collector Hedden, of New York, has appointed John W. O'Brien, an ex-soldier, as Weigher, in place of Sterling, the Brooklyn politician, whose appointment created such a stir. The latter will be well provided for by the incoming Democratic Administration in Brooklyn.

## Will Nominations be Rejected?

A Washington dispatch says the Senate is sure to reject some names sent it for confirmation; not because the appointees are Democrats, but because they are such Democrats as, in the opinion of many good men of both parties, should not have been nominated. Of course, Mr. Cleveland would like to avoid opposition on the part of the Senate, and the Senate has no desire to have any unpleasantness with a Democratic President, Republican Senators and Republican Presidents have failed, however, in the past to work together amicably, and it would be remarkable if a Democratic President and a Republican Senate could get along without friends.

The Tuscarora Times-Review says:

We do not know what stand the President will take in his forthcoming message, but we do not believe he can take his party with him on a gold platform. It is much to be doubted if he will try. His chances of a successful administration are in proportion to his purpose to emancipate himself from the influence of the free trade, gold standard, cheap labor clique which left its natural party affiliations to help elect him. As all the organs of the clique supported the Republican candidate for Governor of New York, the President may feel that he is no longer under obligation to placate them.

There is an agitation commenced in favor of the uniform use of the abbreviations "Rd." and "Ry." for "Railroad" and "Railway" respectively. The proposed abbreviations have the merit of common sense, as "railroad" or "railway" are each single words, while the commonly used abbreviations "R. R." and "R. W." would imply that they were each two words, viz: "Rail Road" and "Rail Way." By all means let us have "Rd." and "Ry."

"There is some talk of trying to induce Vanderbilt, Conkling or Blaine to be candidates for the Senate from Nevada," remarks the Reno Journal. Well, so far as the provisions of the Constitution of the United States are concerned, there is nothing to prevent this, as it merely requires that the person so serving shall be an "inhabitant" of the State from which he hails. If it be claimed that this is a State office, and if the mandatory provision of the Constitution of Nevada be invoked, which says that the "residence" shall be actual and not "constructive," then the reply may be made that this has been so liberally construed that almost any citizen of the United States may slip in. In England and France representatives in Parliament and the Chamber of Deputies are chosen on account of their fitness, not because they happen to reside in some particular locality.—Carson Free Lance.

A FORLORN HOPE.—The Carson Tribune is naturally and correctly indignant over the abolishment of the Mint. It advocates Gen. Clarke's proposition to send a delegation of Nevadans to Washington to intercede with the Administration for its re-establishment. We have two Senators and a Congressman whose duty it is to do all in their power to effect that purpose, and if their efforts are unavailing we fear that no good could be accomplished by the representations of private citizens. However, there could be no harm in trying the experiment.—Times-Review.

The Nevada lawyers who have gone to San Francisco are all doing well. Among the number may be mentioned Col. Bob Taylor, Bill Bishop, Crit Thornton, E. B. Stonesill, R. B. Mitchell, and A. H. Ricketts. Ex-Judge Beatty has a large practice in Sacramento. W. H. Dickson will soon move to San Francisco from Salt Lake.—Free Lance.

The Democrats needn't worry themselves about what the Republicans will offer in a political way to give Hon. George W. Baker. Mr. Baker doesn't belong to the Bourbons any longer, and they have nothing to say as to what he shall or shall not receive. If the Republicans wish to give him a nomination that is their business.—Free Lance.

The Democratic Administration close up the Carson mint on the grounds that the country around it does not produce sufficient precious metal. Will the Washington authorities please tell us how much gold and silver is produced in the vicinity of the New Orleans Mint?—Carson Appeal.

George H. Morrison is in Texas and seems to like it pretty well. If he gets the people of the Lone Star State for a few sets of Bancroft's Histories he will be able to foreclose his mortgage on the entire commonwealth in a year or two.—Carson Free Lance.

## TOWN AND COUNTY.

### BREVITIES

Pete Marker is in town.

The weather indications are favorable for a storm.

R. L. Fulton departed for the Bay Sunday evening.

Allen Bragg came in from the ranch yesterday afternoon.

Mrs. Chambers' house near the Gas Works is for rent. See 50-cent ad.

The Reno and Susanville stages are now running on winter time, taking two days to and from each place.

J. W. Eckley, Supt. Patten and Dr. Cole, of Virginia, were passengers for the Bay Sunday evening to attend Senator Sparrow's funeral.

Mrs. Alt will commence her regular dancing school for the Winter at Armory Hall to-morrow (Wednesday) evening. Saturday night soirees as usual.

R. S. Osburn, late chief clerk of the Carson Mint, returned home Sunday. He says all hands have resigned except Supt. Garrard and three watchmen.

The Susanville Advocate, of Saturday last, says: "Rev. Henry Aston, of Reno, preached to an appreciative congregation at the M. E. Church, last Sunday evening. He is a pleasing and instructive speaker."

Telephone is the name given a new mining district recently organized in the northern part of Elko county. The district is located at the head of California creek, on the Island Mountain and Hicks district road.

Frank Fielding, of Virginia City, who was appointed Superintendent of the Chemical and Assaying Department of the State University, has resigned the position before entering upon the discharge of the duties.

The Carson Tribune is unduly excited, saying: "The town of Reno is very quiet at this time, and to a visitor from Carson everything looks exceedingly dull in comparison with the Capital City. Reno lays over Carson in private school buildings, but she ain't a circumstance with our churches and public school houses. In fact there is not a decent God's house in the riverside town." There may not be a decent house, but there is more religion.

### The Douglas County Placers.

The placers on the east fork of the Carson, in Douglas county, are said to be turning out well. A minor named Zion is reported as making \$4 per day, and has taken out as high as \$750 from his sluices. The ground is located for eight miles above the fork to the California line. Miners are building small dams across the gulches in the vicinity of the mine with a view to discovering the source of the gold now being mined along the river banks. They think that the rain and melting snow may wash some of the precious metal down the canyons this Winter, and thus enable them to discover the ledge.

### Fossil Remains in Lincoln County.

The petrified bones of an enormous animal belonging to the prehistoric age were recently unearthed in Bullionville, Lincoln county, at a depth of twenty feet from the surface. The head measured three feet in width above the eyes, and the eyes, judging by the sockets, must have been as large as baseballs. The Pioche Record says: We have in our possession a half-dozen of the animal's teeth, which are five inches in length and can be seen by calling at our dwelling.

### Birthday Reception.

The members of her family gave Mrs. W. R. Jenvey a birthday reception at the Lake House parlors last evening, which was one of the society events of the season. Many handsome presents were given, and in a social way the evening was quite an event. There was dancing and other innocent amusement. The fair recipient's sweet face was constantly suffused with blushes over the constant stream of compliments she was showered with.

### TO LAND BUYERS.

The following circular letter has been issued by Surveyor-General Preble:  
STATE OF NEVADA  
LAND DEPARTMENT,

CARSON CITY, Nev., Nov. 12, '85

DEAR SIR.—Following is a copy of an official order addressed to me, September 8, A. D. 1885, to-wit:

ORDERED. That on and after September 8, 1885, the following shall be the price of all agricultural and grazing lands that have been or may hereafter be granted by the United States to the State of Nevada, and which have been settled upon, or applied for prior to said date:

Upon agricultural and grazing lands, within the limits of the Central Pacific Railroad grant, immediately contiguous to springs, lakes or streams, five dollars per acre.

Upon agricultural and grazing lands, without the limits of the Central Pacific Railroad grant, immediately contiguous to springs, lakes or streams, two dollars and a half per acre.

By order of the Board of Regents of Nevada.

The above is authorized by the last clause of Section 3 of an Act approved March 12, 1885, entitled "An Act to provide for the selection and sale of lands that have been or may hereafter be granted by the United States to the State of Nevada." (See page 102, Statutes of 1885.)

In order to positively determine the character of lands desired at the price of one dollar and twenty-five cents per acre, I shall, hereafter, require of each applicant, or of any person qualified to testify, an affidavit, to be made in terms of printed form (A), herewith enclosed.

All lands not applied for, but settled upon prior to September 8, 1885, whether within or without the limits of the Central Pacific Railroad grant, and whether or not immediately contiguous to springs, lakes or streams, are subject to the price of one dollar and twenty-five cents per acre, provided that such settlement shall be claimed as demanded by terms of "Affidavit of preferred right" form (B) herewith enclosed.

As may be seen by careful perusal of the above, the only tracts affected by said order are "agricultural and grazing lands lying immediately contiguous to springs, lakes or streams."

C. S. PREBLE,  
State Land Register.

### A Serenade.

The True Fissure says that Sunday night week the Candelaria String Band, consisting of T. Gallow, first violin; E. Blanchard, second violin; W. Hoskins, cornet, and E. W. Reed, base viol, shouldered their instruments and marched up the hill to the residence of J. H. Harcourt. After sweet music was discoursed for awhile in the open air, the band was invited into the house, where they were strengthened by the addition of Mrs. Harcourt, piano, and Mr. Harcourt, violin. A fine lunch was spread and the boys enjoyed themselves until nearly eleven o'clock, and came away loud in their praises of the hospitality and musical ability of their host and hostess.

### Land Sales.

During the first half of November, 1884, the aggregate of lands applied for in the State Land Office was 8,560 acres, all at \$1.25 per acre. During the two weeks ending Saturday, a total of 2,840 acres, 760 at \$2.50, and 2,080 at \$1.25, have been applied for. The decrease of nearly 6,000 acres, as shown above, is probably due to the recent order of our Regents increasing the price of certain lands. Better \$10,700 than \$5,300 drawing interest for our school funds, to say nothing of taxable wealth created by land sales. The former amount represents proceeds (excluding interest) to be derived from 8,560 acres; and latter amount, that derived from 2,840 acres, disposed as above.

### Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, eases wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

NEW TO-DAY.  
For Rent.  
My house near the Reno Gas Works.  
Nov. 17. MRS. A. CHAMBERS.

### THE WALKER RIVER FAIR.

Agricultural Exhibits—Stock Display—Races—Ladies Riding Tournament—Premiums—Etc.

The third annual Fair of the Walker River Agricultural Association, held a few days ago at Greenfield, Mason Valley, was an excellent success, notwithstanding cold, rainy, unpropitious weather. The Lyon County Times says:

"There was a great many people in attendance, and all seemed to take great interest in the affair. The association has purchased grounds immediately adjoining the town, and has built a first-class race-track upon the grounds. The track is yet new, and therefore was not in as good condition as it will be in another year. However, some very good races, both trotting and running, were had. The most exciting running race was the free for all which was closely contested by two sorrel mustangs. The only trotting race was that between W. R. Davis' stallion, Joe, and a bay trooper owned by J. G. Kaufman. Joe won the first half-mile heat, and Kaufman's horse the next two heats and the race; purse \$20. The best running horse on the track was owned by Alex McKindrick, and he won all the races he was entered for. The Ladies' Tournament was also one of the attractive features. Five ladies entered, and the Judges awarded the first premium to Mrs. J. G. Smart, for graceful riding, and Mrs. Ellen Bewley received the first premium for skillful riding. At the stock corrals were found many fine animals of different breeds." The Times appends a full list of the premiums awarded, and adds:

On Thursday evening a grand ball was given by the Greenfield Guard at Smart's Hall. Excellent music was in attendance, and everybody danced. The affair was a great success, financially as well as socially.

### Has Started Up.

The Candelaria True Fissure says: The State Line mill at the southern end of this county resumed operations on Tuesday under the supervision of Pearis B. Ellis. It is the intention to crush the 500 tons of ore now on the dump with a view of ascertaining how well it will pay. Meanwhile a force of men is at work in the mine extracting ore. The wood contract has been completed, and it is calculated the amount now at the mill will be sufficient to carry in operations until the timber mentioned above is ready. The contractors of the wood supply fully anticipate receiving another order for hauling as soon as that now on hand is exhausted. If the ore proves a success in value, it will not be long before more gold bullion will be sent from Emerald. The above item should not incite unemployed men to go to Gold Mountain, because all the hands needed are there now.

Nevada Lodge No 5, A. O. U. W. will hereafter meet every Tuesday evening in the hall of Reno Lodge No. 19, I. O. O. F., over the Congregational Church.

### Servous Disinclined Men.

Putting more silver into a silver dollar will have a tendency to put more grab into a silver dollar—Hailey Miner.

Not a bit of it. It will, however, take more grubbing to earn a silver dollar.—Times-Review.

Charley Stoddard is spending a few days in the city, and is probably on some Senatorial business. From what can be learned of him, there will be music in the air next summer.—Carson Appeal.

It is reported that George Richard will take charge of the Opera House on the 1st, as Barney McClure is about to leave the city.—Carson Appeal.

Nevada people ought to buy the flour made in this State. It is fresh and in every way first class.—Carson Free Lance.
